

DEMOLITION

BUILDING & SAFETY DIVISION

(530) 795-4910 ext. 112 or 117

318 First Street

FAX (530) 795-4935

Winters, CA 95694

- Complete the City of Winters building permit application
- Complete the City of Winters Asbestos Notification Form
- The City of Winters Public Works Department shall disconnect water service and sewer service with inspection and approval.
- City water crew, upon receipt of demolition application (approximately 2-3 days) shall pull the water meter.
- Any fuel tanks (above or under ground) are to be removed in accordance with State regulations.
- Wells shall not be abandoned. Wells must be sealed in accordance with State regulations.
- All tanks (septic or fuel) must be pumped and removed by an approved method.
- Electricity disconnected and meter removed by utility company
- Gas meter removed and gas supply capped at property line
- Cable disconnected by proper authority. (All disconnection of utilities is the owner's responsibility and the demolition permit cannot be finalized until electrical, gas and cable connections have been removed.)
- All debris (construction materials and concrete) removed from lot and the lot graded.

For more information, call the City of Winters Building at (530) 795-4910, extensions 112 or 117.

Demolition permits for properties not listed in the City of Winters Historic Resources Inventory are an over-the-counter permit when the application is complete and fees are paid. If the property is listed in the Historic Resources Inventory, the application will require additional review. Please contact the Planning Division for more information, (530), 795-4910, extension 112.
