Winters, CA 95694

NOTIFICATION OF POOL/SPA BARRIER REQUIREMENTS

The purpose of this notification is to ensure all parties are aware of the requirements to install a pool barrier to prevent the uncontrolled access of children from adjacent properties and from the home to a swimming pool as defined by law.

Prior to filling with water, a swimming pool either in-ground or above ground and includes, but is not limited to, hot tubs, spas, portable spas, and non-portable wading pools, shall meet all the requirements on Health and Safety Code Section 115920 and City of Winters Municipal Code Chapter 15.44. Failure to meet the requirements will result in revocation or suspension of the permit.

In addition, any person or contractor entering into an agreement to build a swimming pool is required to give the consumer notice of the pool requirements for pool safety. Health and Safety Code Section 115920

I have read, understood and will comply with the pool barrier requirements under state and local law. If contractor is submitting for permit, property owner must still sign form. A swimming pool permit will not be issued until this form is completed and returned to this office.
