City to provide installation of water meter, setup and box per City standards. City will attempt to minimize damage to existing landscape, but is not responsible for plant material removed to preserve said Standards within City's easement. City will replace hardscape with standard color sack concrete (asphalt where existing). City will not replace decorative concrete in-kind. City will work with Property Owner's contractor if decorative concrete is desired.

City will schedule installation of meter based upon the City's availability of crews and materials. Payment of charges below meets Owner's obligation of City's requirements for installation of meter upon sale of residence.
