

CALIFORNIA MANDATORY Commercial Recycling Laws

AB1826

ORGANICS RECYCLING

AB341

RECYCLING

The Law

California law requires certain commercial businesses and multifamily properties to have recycling collection services. Those services include mandatory collection of organic materials such as food scraps, food-soiled paper and landscaping trimmings.

What's New? Starting January 1, 2019

Businesses that generate **4 cubic yards or more of solid waste per week** must have organic waste recycling services. Organics include food, yard trimmings, nonhazardous wood, and food soiled paper.

See reverse side for a composting guide.

The commercial sector generates nearly three fourths of the solid waste in California. Much of the commercial sector waste disposed in landfills is readily recyclable.

AB 341 requires all businesses that generate 4 cubic yards or more of trash per week to arrange for recycling services.

See reverse side for a recycling guide.

4 CUBIC YARDS IS THE EQUIVALENT OF 8.5 96-GALLON CARTS.

Current Regulations

Since January 2017, businesses that generate 4 cubic yards or more of organics waste a week must subscribe to organics collection.

Need Help?

Waste Management can help your business meet these state regulations. We offer free on-site visits that can help your business meet the state's mandatory recycling requirements.

Contact Waste Management to schedule an assessment.
