

City of Winters Charging Stations Project

Design build turnkey project:
4 new electric car charging stations

Location 1- Winters Community Center Parking Lot

- Provide single line diagram with plot plan for permitting.
- Remove the existing metered pedestal and concrete base. Relocate the existing underground conduits as required for the new metered pedestal location.
- Install new concrete bases for the metered pedestal and the two EV car chargers.
- EV chargers provided by City of Winters.

Location 2- First and Abbey St Parking Lot

- Provide single line diagram with plot plan for permitting.
- Provide and install (1) new 400Amp 120/240v single phase metered pedestal.
- Install (1) New Level 2 EV pedestal charging station capable of charging two car stalls and (1) Level 3 EV pedestal charging station capable of charging one car stall.
- Connect the existing parking lot lighting circuits and the new EV charge station circuits to the new pedestal. Connect the existing booster pump to the hotels electrical panel.
- EV chargers provided by City of Winters.
