The Fire Department's Gift for Kids program will support over 90 needy families in Winters this holiday season. A huge heartfelt thank you to the Fire Department staff and volunteers, their families and everyone who contributed funds and toys to help bring some added cheer to local families this holiday season. The Fire Department runs the program with the help of their own families to wrap all the gifts and coordinate with the families. One of the outstanding traits of the Winters community is how much and how often the people step up to support others.
